

Participants Needed for Dementia Caregiving Study - Dementia Caregiver Legal and Financial Planning Needs

Researchers at the University of Wisconsin-Madison recently received funding from the National Institutes of Health (NIH) in collaboration with a San Diego small business, CareVirtue, to develop a legal and financial education tool for caregivers of people living with Alzheimer's disease or related dementias. They are currently looking for people to participate in a survey that will help the research team build this tool. Current caregivers to someone living with dementia living in the US are eligible. The survey takes about 10 minutes to complete and participants who complete the survey will receive a \$20 Amazon electronic gift card.
